

# STEEPLE VIEW ESTATES

Beginning at the corner of Fifth and Hamilton Streets, Steeple View will extend northeast toward Paris and Seventh Streets. When complete, this collection of homes will encompass 30 total acres on the edge of the village of Minster.

Steeple View Drive will become an icon for what a neighborhood street should be. A welcoming drive that is an integral part of the neighborhood, lined with trees and friendly sidewalks.

The repetitive sameness that defines so many neighborhoods will be non-existent. Here, whether it's eclectic, contemporary, or traditional, your individual style will be reflected.

Steeple View will be a collection of dwellings designed to naturally embrace the current landscape. The amenities of village living, combined with scenic countryside views, merge to create a special setting you can call home.

*Join us as a new neighborhood on the edge of town comes to life.*
